## HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Nathan Cassell on 24 April 2009.

The application has been amended as follows:

**In the claims:**

- a. In claim 1 at line 12, please delete the word "transition" and insert the word --expansion-- before the word "step".
  - b. In claim 6 at line 2, please delete "Co--/Ni-doped" and insert --Co-/Ni-doped-- before "MgO".
  - c. In claim 9 at line 2, please delete "Si--SiO<sub>2</sub>" and insert --Si-SiO<sub>2</sub>-- before the word "bonded".
2. The following is an examiner's statement of reasons for allowance:
- As pointed out in Applicant's remarks, the prior art of record does not teach a photovoltaic cell which begins at the expansion step and extends along the first section as claimed. The specification, particularly in paragraphs 0056-0060 and Figures 1 and 16 demonstrate the significance of positioning the cells as claimed, in that the expansion step claimed results in a uniform temperature along the first section and

corresponding emitter. As would be immediately recognized by one of skill in the thermophotovoltaic art, the spectrum emitted from the emitter is determined by the emitter temperature, and an emitter having a uniform temperature as disclosed will have correspondingly uniform emission spectrum, which would be expected to provide overall enhanced efficiency, given cells having an appropriately selected bandgap. As the uniform temperature is disclosed as being present beginning at the expansion step (Figure 16; Paragraphs 0054-0057), the positioning of the cell beginning at the expansion step will clearly best take advantage of the uniform emitter temperature.

Kovacik et al is considered to teach an expansion step as claimed (see previous Office Actions), but the reference does not teach cells 14 beginning at the expansion step as instantly claimed. In addition, there is no indication in the reference or any other prior art of record that the advantages associated with such cell placement were recognized. Since no teaching from the prior art would have led one skilled in the art to specifically position cells 14 of Kovacik et al beginning at the expansion step, such modification is considered to have been unobvious, particularly in view of the evidence of the significance of such cell placement in the instant specification (Paragraphs 0056-0060 and Figures 1 and 16), discussed above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Jeffrey T. Barton whose telephone number is (571)272-1307. The examiner can normally be reached on M-F 9:00AM - 5:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam Nguyen can be reached on (571) 272-1342. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
